## PASSWORD TO LOYALTY

Might be Appropriately Tried in Many Localities.

Associated Press dispatch from Grants Pass, Oregon, says:

Rev. W. A. Baker, who said he represented the International Bible Students' Association of Brooklyn, N. Y., advertised that he would speak here last night. Before the hour set for the meeting the local council of defense met and appointed a committee to propound to Mr. Baker four questions. They were:

"Are you a member of the Red Cross?"

"Are you a subscriber to the Liberty Loan?"

"Have you purchased Thrift Stamps?"

"Are you whole heartedly and unreservedly backing the government's war program?"

"No" was answered to each question, whereupon Mr. Baker was told he must not attempt to speak here. He abandoned his meeting.

## HELP THE GOVERNMENT.

That sales of War Savings Stamps have passed the \$60,000,000 mark and have been accumulating at the rate of more than \$2,000,000 a day is the gratifying news from Washington. These facts constitute substantial evidence that there are millions of intelligent American citizens who are loyally combining saving and thrift with their other patriotic duties.

While the Ohio War Savings Committee is urging those of means to join the "Limit Club" and buy \$1,000 worth (maturity value) of War Savings Stamps during 1918, it is just as anxious that those unable to invest so heavily adopt a plan of consistent and sustained saving by purchase of stamps.

The committee has issued a state-wide appeal to moderately-circumstanced people to pledge themselves during 1918 to buy at least one Thrift Stamp a day. Hundreds of reports have been received showing that as many people started such a plan with the first of the year.

## P. G. & S. CO. ELECT OFFICERS

The three new directors elected by the Perrysburg Grain & Seed Co. are—Frank Kazmaier, George Limmer and Frank Crain.

The meeting of the board of directors was held last Thursday and the following officers elected:

President—Geo. C. Emmerich.

Vice Pres.—John Schneider.

Sec'y-Treas.—R. R. Hartshorn.

The elevator has been very busy during the past ten days receiving and shipping corn.

## AGRICULTURAL NOTES

Prepared for the Journal by Ohio Experiment Station.

Early hatching means better chicks, better success in rearing, higher prices for surplus cockerels sold as broilers, mature pullets in the fall that will lay more eggs during cold weather, and larger, plumper roasters and capons for the holiday markets. It also means greater use from incubators and brooders and better labor distribution by putting the hatching and care of the small chicks ahead of the rush of spring planting.

Plan to start the incubator as early as March 10 and have the first chicks out by April 1. Those who have practiced early hatching and have good equipment are starting the incubators now to hatch in March. Get started early this year and so produce more, and better birds at more profit.

## AS BAD AS MADE OUT.

"Is the seed corn situation really as bad as the papers make out?" is a common question asked by visitors at the Ohio State University of late, where hundreds of tests are being made. The invariable answer is, "Yes. One of the greatest dangers that we face is that the situation may not be truly realized. Our tests show unmistakably that seed corn is unusually bad, and that every ear should be tested." Up to the present time tests show that five-sixths of the corn tested has germinated less than 50 per cent and nearly one-half of it germinated less than 20 per cent.

## NOTICE.

I wish to inform the public that the Homewood Dairy is in no way connected with C. H. Seiling Dairy but is an independent business of its own.

F. S. LOOMIS, Proprietor, Homewood Dairy.

## Limestone Continues in Favor.

Pulverized limestone continues to be in favor as a soil sweetener or fertilizer, according to the United States geological survey. Since the figures of production were first compiled in 1911 the industry has steadily increased, and the output for 1916 of 1,066,376 short tons, valued at \$1,146,582, represents a gain of 512 per cent in quantity and 460 per cent in value for the six years.

## A Hint to the Aged.

If people past sixty years of age could be persuaded to go to bed as soon as they take cold and remain in bed for one or two days, they would recover much more quickly, especially if they take Chamberlain's Cough Remedy. There would also be less danger of the cold being followed by any of the more serious diseases.

## CHURCH ANNOUNCEMENTS

Services for Next Sunday in Several Perrysburg Churches.

### For Aching Feet.

For burning, swollen feet soak them every night in a solution of soda water. Put a handful or more of bicarbonate of soda in the foot tub with sufficient very hot water to cover the feet. Keep adding more hot water as needed. After this, rub well into the bunions and other sore joints liniment. Wrap feet in cloth, or put old stockings on to protect bed. Use some kind of foot ease in your shoes.

### When You Have a Cold.

It is when you have a severe cold that you appreciate the good qualities of Chamberlain's Cough Remedy. Mrs. Frank Crocker, Pana, Ill., writes: "Our five-year-old son Paul caught a severe cold last winter that settled on his lungs and he had terrible coughing spells. We were greatly worried about him as the medicine we gave him did not help him in the least. A neighbor spoke so highly of Chamberlain's Cough Remedy that I got a bottle of it. The first dose benefited him so much that I continued giving it to him until he was cured."

### A WOMAN'S GAME

Was there ever a game we did not share. Brother of mine? Or a day when I did not play you fair. Brother of mine? "As good as a boy," you used to say. And I was as eager for the fray. And as loath to cheat or to run away. Brother of mine! You are playing the game that is straight and true. And I'd give my soul to stand next to you. Brother of mine! The spirit, indeed, is still the same; I should not shrink from the battle's flame. Yet here I stay at the woman's game. Brother of mine! If the last price must needs be paid, Brother of mine! You will go forward, unafraid. Brother of mine! Death can so small a part destroy. You will have known the fuller joy—Ahl! would that I had been born a boy. Brother of mine! —The London Pictorial.

### PASSING OF MRS. WETMORE.

On Friday night, February 22, 1918, at 11:50 o'clock, the spirit of Mrs. Mary A. Wetmore passed to the other side.

She had been ill for 10 days and fully realized that her time was to be brief.

Deceased was born in Hellensburg, Scotland, April 7, 1837, and came to this country when a child with her parents, who were early settlers on Hull Prairie, in Wood county.

She was the widow of Capt. Frank A. Wetmore and had been a resident of Perrysburg since her early girlhood.

Surviving her is her only child, Mrs. E. L. Blue, at whose home the mother spent the winter season, and where the funeral was held on Monday, February 25, at 2 p. m., conducted by Rev. Dr. Phely of the Presbyterian church. The remains were placed at rest in the Perrysburg mausoleum.

### DIED.

Joseph L. Schwartz, son of Mr. and Mrs. John Schwartz, was born in Clyde, Ohio, January 5, 1885.

At the age of 16 years he was afflicted with rheumatism, of which he was unable to get relief, and was taken with lagrippe on February 10, resulting in pneumonia, and death came to him Saturday, February 16, at 7:45 p. m., at the home of his sister, Mrs. Orson Broeka.

He leaves to mourn his sad departure a father, mother and two sisters, Mrs. Chas. Crowley of Toledo, and Mrs. Orson Broeka of Perrysburg.

We, the family, wish to extend our thanks to the friends and neighbors who so kindly assisted us during the sickness and death of our brother, Joseph L. Schwartz, and for the beautiful flowers, and to Rev. Burman for his consoling words.

### Chamberlain's Tablets.

These Tablets are intended especially for disorders of the stomach, liver and bowels. If you are troubled with heartburn, indigestion or constipation they will do you good.

### LOOT DUNBRIDGE P. O.

Burglars Secure Stamps and Cash from Store.

Robbers secured between \$65 to \$70 in stamps and small change from the postoffice located in John Current's store early Monday morning. Entrance to the store was gained by breaking in the front door. Postmaster Claude A. Current estimated that the chief loss was about \$50 worth of War Saving Stamps; \$3 to \$5 worth of small change and some other stamps. About \$2 in change was taken from the cash register of the general store. The robbery is thought to have been committed between eleven and three o'clock.

Otis Duty's horse and buggy was stolen from the home of his brother-in-law, Christ Styer, about a half mile from Dunbridge and the intruders are supposed to have made their escape toward Toledo in this vehicle. Mr. Duty heard a noise in the barn last night and started to investigate. He found the horse and buggy gone and with Mr. Styer followed the tracks made by the horse. They found the horse near Perrysburg on the McCutcheonville pike. The men had tied the lines to the buggy and started the horse back after they had abandoned it.—Sentinel.

### OBSERVATIONS.

Russia, of the yellow streak, when smitten turns the other cheek.

In addition to being cold at this season of the year, all Canada is now sitting in a "draft."

Russia is suffering from an alarming scarcity of padded cells. Lenine has set up the barrel house politician in the czar business.

Take your favorite quarter and start a thrift album for your favorite protege.

If all the world were bolshevik the kaiser would not need to make war in order to carry out his conquests.

President Wilson has sent his cast-off clothes to Belgium, but it is understood that his shoes are to go in 1920 to some poor but deserving American statesman.

### EMPLOYMENT BUREAU

For Students Who Will Work on the Farm.

During the past year many workers have been taken from the farms, factories, shops and stores. Others will probably be taken within the next few weeks. Next spring and summer there will be a greater shortage of workers than has existed for years. Farm labor is very scarce, and the demand is unusually strong because much of the fall and winter work must be done this spring. Every person able to work should offer his services and be employed this summer, otherwise our people, both at home and abroad, will suffer.

State Superintendent Pearson has suggested that the county superintendent's office be used as a clearing-house for workers and employers.

All upper grade boys and girls who have no serious employment for next summer should call or write this office for enrollment card. All of our young students are industrious and patriotic. I am sure that none will be idle when our country needs their labor.

All persons who need help should call for registration blanks or write this office giving specific statement of their needs.

H. E. HALL, County Supt. of Schools.

### GETS FOR THE CRAZY.

In the Orient the crazy man is a privileged person, to be tolerated, given food, allowed to go where he will, but never cured. He is supposed to be a peculiarly "holy person." But it is Americans, says World Outlook, who in 1872 founded the first hospital for the insane east of Suez—the Kerr Refuge at Canton, with 500 patients, who come from all classes; here you will find the mandarin, the colonel and beggar. Of them 39 per cent are reported as recovered.

### About Constipation.

Certain articles of diet tend to check movements of the bowels. The most common of these are cheese, tea and boiled milk. On the other hand, raw fruits, especially apples and bananas, also graham bread and whole wheat bread promote a movement of the bowels. When the bowels are badly constipated, however, the sure way is to take one or two of Chamberlain's Tablets immediately after supper.
